WRITTEN ANSWERS TO QUESTIONS

News-Item Regarding International Business Transactions

@*241. SHRI KRISHNA KUMAR BIRLA:
SHRI GHUFRAN AZAM:

Will the Minister of COMMERCE be pleased to state:

(a) whether Government's attention has been drawn to the news-item captioned "India among the most corrupt Nations: Report" as reported in the 'Pioneer', dated 16th July 1995;

(b) if so whether according to the survey conducted by "Transparency International" it has been revealed that there is corruption in the International business transactions;

(c) if so, what are the details thereof; and

(d) what is Government's reaction thereto?

THE MINISTER OF STATE OF THE MINISTRY OF COMMERCE (SHRI P. CHIDAMBARAM) (a) Yes, Sir.

(b) to (d) Transparency International (TI) is reported to be a Berlin based Non-Governmental Organisation (NGO). TI has released a so-called '1995 TI Corruption Index' which is reported to be an assessment undetaken for TI by a German economist in which seven existing surveys of international business interests and financial journalists have been analysed and collated.

The index released by TI does not reveal the background of agencies which carried out the survey, the methodology adopted for the survey or the credentials of the business interests and financial journalists who were surveyed. The credentials of the economist who is reported to have collated these surveys as also the credentials of TI have not been revealed. The index is not based on any specific cases or empirical data but seems to be based on perceptions of some business interests, details of which are not available. As such the report does not merit any specific reaction.
